

McCabe Supplement Sheet

We are excited that we are getting so many calls before our sale next week and rather than repeat so much information over each phone call we have decided to put a supplement sheet on our website that might be helpful. First of all, a group of Polled Hereford bulls have empty EPD boxes in the catalog. They are lots 177 through 182. These are a really good set of well bred bulls and I simply missed catching that on the proof. It is so obvious that I would like to say that two pages stuck together for an alibi but I honestly don't know what happened. At any rate, they are good bulls and we don't need them at a disadvantage. There are also some other changes that we have listed and will update as others come along.

Due to the extreme cold weather we had a few weeks ago and the extreme wet weather we have experienced since that time we do not have all of the bulls freeze branded. Weather permitting, we will freeze brand the bulls the week after the sale.

Female Updates

Gary Holst, 913-626-6969, Holst Land and Cattle Company, Thayer, KS

20 head of black and black baldy open heifers. These home raised heifers will be rich in McCabe Genetics breeding and Gary is one of those guys who wants to make them as good as they can be. They will be pelvic measured, OCV'd and ready to go into your program. Located at Thayer, KS.

Lightning Creek Cattle Co, Jeff Smith 913 291 5575

7 fall calving bred cows to start calving 9-19-21 for 30 days. These cows will sell as commercials but for an additional \$200 per cow papers can be provided. They are bred to a grandson of Discovery with a 9 CED that goes to a 128 yearling EPD. Jeff does a really good job and works with us as a bull cooperater. The only reason these cows are available is because of a lost lease.

Terry Evans 620-212-3403, John Evans 316-377-8941

52 head of black and black baldy, with 7 head of red baldy, open heifers ready to breed. These home raised heifers are the top of Terry and John's 2020 heifers with nothing held back. Nobody does it better than these guys when it comes to selecting McCabe bulls and developing future cows with a lot of selection pressure put against them. Everything is done, pelvic measured, repro tract scored, PI negative, prebreed vaccinations, and wormed. Buy with confidence! Located at Fall River, KS.
